

90.1 Airl is a positive, often life changing station. Their music along with their message of hope often brings life to those who listen. I found Airl by "channel surfing" and it had a profound effect upon my life as well as the lives of my children. Losing Airl would, I believe, have a devastating affect on Riverside County. All of the other stations I used to listen to have angry or profane music as well as commentary by the D.J.'s and my children do not need to grow up listening to those kinds of things. As a parent wanting to raise positive, outgoing children to be a productive part of this society, I wish to have Airl remain on the air as it is.

I know from listening to Airl the many lives it has changed. It has brought drug addicts to helpful places and made them rethink their life choices. Airl and its affiliates has made a tremendous impact upon many lives and taking it away would destroy any chance of saving many more.
